Riley Noggle

Riley is the son of Mat and Christine Noggle. His favorite team moment was running the concession stand during one of the Saturday tournaments. It was nice to support his team and bond with his teammates even though he wasn't competing. Riley's extra-curricular activities include cross country, track and field, robotics, and working at Chick-Fil-A. His future plans are to attend Purdue, majoring in Software Engineering and minoring in Business. After college, he plans to work for a Tech company and eventually own his own business. To his teammates: "find confidence in yourself. Find something you find pride in and stick with it. I found weightlifting and running. While I might not be good at one or both of those activities, they helped me appreciate myself and feel confident throughout most of my high school career. As long as you're happy with yourself, you'll get through life (at least for high school) easily." To his parents: "I want to thank my parents for being there for me and supporting me throughout all of my life. I joined tennis almost out of the blue, and my parents helped fund and support me throughout all my practices and meets. Even though athletics isn't my strong suit, my parents are still willing to devote time to this activity. They are the best parents any child could ask for."
