Paige Hadley

Paige is the granddaughter of Ron and Marcia Coffey and Joseph and Kathy Carrel. She can't pinpoint a single favorite moment. She's loved being a part of the team and watching each and every individual grow. Whether it was as a person, player, teammate, manager, coach, or trainer. I love how the team became family and the stadium became like home. Standing on the sidelines with the same boys whom she watched play their first freshman game is absolutely nostalgic. And mainly to the other girls she manages with, every argument about who was filming, what was going on, every laugh, the teases, and every moment or moment that will forever be her favorite. But overall she loves the sisterhood she got with her girls. Paige's extra-curricular activities include High Voltage, Accents, and track. Her future plans are to study Forensics and Psychology. To her teammates: "To the managers, Being around you girls on a daily basis this year and a couple of you the past two years has allowed me to get to know each of you in so many unique ways. Each of you holds yourself and your personality so high and the only advice I know to give is to continue doing that. Never stop being stubborn yet determined hard heads you are and don't give up because I can not wait to see how far all of you go. To the football players, continue to be willing to grow because it truly is amazing to watch, never stop wanting it, and finish this season strong. and to those of you on the team who aren't seniors, make each game, practice, and interaction count, it goes by faster than you think." To her grandparents: "You will never know how much all of you mean to me. I couldn't even begin to imagine where I would be without you. I truly am so thankful I get to walk with the grandparents who raised me into someone I'm proud to be. Thank you for every laugh laughed, hugged shared, lesson learned, and need met. Everything I do and will do, is for each of you."

Bria is the daughter of Leroy Hayes and LaTrice Watson. Her favorite team moment was being there every day, even when she was tired from school or work, it was always memorable. Working with the other managers, there were always jokes and laughing. Whether it was standing on the sidelines or helping out at practice, it was a nice environment and she always felt safe and comfortable. Bria's extra-curricular activities include being President of the Black Student Union. Her future plans are to attend Tennessee State and study Nursing to become a Nurse Practitioner. To her teammates: "The advice I want to give to the other managers is just to manage your time well in whatever you do. Don't get overwhelmed with managing or other things you do and make whatever you are doing fun and enjoyable. The advice I would give to the players is to continue supporting each other in and outside of football." To her parents: "I want my parents to know that they did an amazing job raising me even when I don't see it. They've always wanted what was best for me and always looked out for me whether it was with an assignment, friends, or other life decisions. They have guided me and shaped me into the person I am today and I am very thankful for them."
