### Zion Davis - Manager

Zion is the son of Jason and Emily Davis. His favorite team moment was from his freshman year when they were at practice with Coach Kidwell, Mason burped, had to run laps and they all could not stop laughing. Zion's extra-curricular activities include soccer, volleyball, and FCA. His future plans are to graduate a semester early, complete Basic and AIT training for the National Guard then pursue college. He has not made a final decision on the area of study but is interested in Sports Medicine. To his teammates: "Most of you guys know I've been dealing with this knee injury for the past year since last season. And I know some of you guys are gonna get hurt and have to go through the same process. I know it's hard at first but you have to realize that God does things for a reason and don't give up. Keep your head up and try your best to be positive about it. Whatever you want go and get it don't let anything stop you. " To his parents: "First of all I want to say thank you. You guys have always been there for me and supported me in any decision I've made. I know it hasn't been easy raising 4 boys but I think I've turned out all right. I can always count on you guys if I ever need anything and I'm so thankful for you guys. I love you both and can't say how much you mean to me. "

Nate is the son of Andy and Kelly Foulk. His favorite team moment was the entirety of summer conditioning headed into freshman year. As a freshman going against upperclassmen, expectations were low. Being able to transition from those experiences to being a senior captain with all these guys, he couldn't ask for anything more. Nate's extra-curricular activities include soccer. His future plans are to attend college in a stem field and possibly play soccer in college. To his teammates: "Stay focused. High school soccer isn't the end of the line, and as you progress in life keep your goals in mind. Remind yourself what you're here to do and work towards it. Be deliberate in taking action and don't waste time. Life is short - make the most of it. " to his parents: "Thank you guys for everything you do for me. I appreciate your constant support and guidance in the decisions that I make. I wouldn't be where I am today without you, and you have kept me on a path where future success is a certainty as opposed to a possibility."

### Will Hannah - Manager

Will is the son of Todd and Sam Hannah. His favorite team moment was from freshman year: After traveling two hours south to play in a Varsity/JV tournament as an almost all-freshman team, the C-team proceeded to bring a varsity team all the way to PK's and win. Not only was it awesome that the first win of the season was against a varsity soccer team, but once the last shot was saved, they all rushed to the field to celebrate as they had just won a World Cup final. They got to the busses and began to scream chants and celebrate some more before they all got tired and either went back to a hotel or drove home. He won't forget this game because of how blessed he was to celebrate such a difficult win with some of the best people to ever be in his life. Will's extra-curricular activities include being the President of FCA, the National Honor Society, the Student Leadership team at The Creek, student helper in the CIP classroom at FCHS, and volleyball. His future plans are to attend Liberty University in Virginia or Indiana University with a focus on Pre-Med and Ministry. To his teammates: "Difficult outcomes should not define us as a team or as an individual, but should help us become better. Proverbs 27:17 says, "As iron sharpens iron, so one person sharpens another." There is a lot of truth within this verse that every one of you should understand. To succeed as a team we cannot progress at individual rates but as one brotherhood. From the many rough moments of the season, we cannot choose to blame one another, but rather build each other up to become better soccer players and teammates. If one thing I say could be remembered by all of you on this team, it would be that although I am not on that field with you this season, I am just as proud to be a part of this brotherhood -- from the first week of conditioning to the last game of the season, I wouldn't choose to invest my time any other way with any other group. Thank you all so much for all of the happiness and laughter that you bring to my day. " To his parents: "To my amazing parents, Although in the last four years our family has been faced with some of the most difficult challenges, we made it together. You both have taught me through these struggles that we are resilient and that love overcomes all. Whether I came home excited to share something great that happened or came home so upset that I wouldn't want to talk, you were there to listen to me. You've shown me love and support on the sidelines of every single game I've played and I couldn't have asked for better fans. Regardless of the outcome of the day you always saw me as a champion and I'm so unbelievably thankful to have two of the most supportive parents. I love you both so much, and I cannot wait to make you even more proud in the future! Love, Will."

All it takes is one opportunity, seize it." To his parents: "Dear Mom and Dad, As I've gotten older you've always been there to offer encouragement, advice, and good wishes. It has helped mold me into the athlete and student I am today. This time, I want to turn the tables and do the same for you, especially since this is my senior year, and likely to be my last time playing organized sports. There have been times before, during, or after games when you've said or done something that has annoyed me. I realize you've meant no harm, but I want to spell things out for you so the memories we take from this last year will be good ones. First, I want to thank you for respecting my wishes, letting me play a variety of sports, and not making me specialize in one. The money you spent for me to play on various select teams wasn't a guarantee that I would ever become good enough to play college ball. Look, I know I'm not going to get an athletic scholarship. I learned something about genetics in biology class. I have your genes, which explains why I'm not 6 feet 10, 275 pounds, and can't run the hundred in 10-flat. Don't blame me for not playing at the next level — look in the mirror. Just kidding. I wouldn't change a thing about me — or you."
